

9 I just need more. Text & music: Stein Jonassen © Continental Sound Music, Rotterdam, The Netherlands

I just need more of this time with You, I need to sit at your feet
I need your love everlasting for everyone that I meet
I need more hope, give me more faith to see this world reborn
I cannot breathe without You next to me

I just need more of your holiness; I need to grow in your light
And how I need your forgiveness, I need You to hold me tight
Lord, I hunger for your word, the music of your voice
I cannot breathe without You next to me

I just need more of You, Jesus, I just need more of You
I just need more of your presence in me, more of You, Jesus, in me
I just need more of You, Jesus, I just need more of You
I just need more of your presence in me, more of You, Jesus, in me

I need You, Lord, to heal me, my body, mind, and heart
I just need more of your presence; I die if we're kept apart
I cannot live without your grace, no one can take your place
I cannot breathe without You next to me

I cannot sing without your melody, without your light, my eyes can't see
How can I walk without You guiding me?
I cannot sing without your melody, without your light, my eyes can't see
How can I walk without You guiding me?

I just need more of You, Jesus, I just need more of You
I just need more of your presence in me, more of You, Jesus, in me
I just need more of You, Jesus, I just need more of You
I just need more of your presence in me, more of You, Jesus, in me
More of You, Jesus, in me, more of You, Jesus, in me
